

This is a guide to assist you to calculate an accurate sum insured for your household goods. List the household goods items in each room of your home and write down the estimated replacement value for the item. If unsure of the replacement values we recommend you seek advice from a professional valuer.

When you add to this the value of carpets and your valuables you can use this as the value/or sum insured of your contents for your home contents insurance.

**Important:** Your goods are insured for replacement value and the sum insured must represent the full replacement value.

	Your Replacement Value		Your Replacement Value		Your Replacement Value
